

# Empower

## Client Information Sheet

Set up by founder Richard Jones in 2007 Accessible News has been involved in lots of activities such as campaign to improve access to town centre, improvements to play areas and raised £500 each for the British Lung Foundation and Brittle Bone Society.

### What is Empower?

Empower is a drop in surgery which is aimed at helping people with, or the families of people with disabilities on a manner of different subjects. Simply pop in and see us, we'll take some details and either look in to your query or arrange an appointment to discuss it with you in more detail.

Our team of volunteers has a wealth of experience and a vast directory of excellent contacts we can call on for help. If we cannot help, we can point you in the direction of someone who can.

### How does it work?

When you drop in to see ask you will be given a form which we will ask you to fill in. If you are unable to fill in or need this information in an alternative format we can provide that for the next time you come. We will discuss your query with you and then go away and look into it, we will then contact you with our findings. We may need to arrange to see you again to talk things through or we may need to refer you to someone else who can help, if we do that we will introduce you to them and make sure your appointment is at a time and location which is accessible to you.
